Value Windows & Doors Galaxy Series Windows

Galaxy Series windows feature a robust frame with many convenient features. Even sight lines, standard LoE3 glass and frame types for every application, will make this product family your preferred choice for any replacement or new construction project.

Galaxy Series sliding window

Galaxy Series tilt-in single hung window, obscure glass

Galaxy Windows key features

- Heavy duty extruded vinyl for structural strength and durability
- Even sight lines for a balanced look
- Miter cut and fusion welded frame and sash for structural integrity
- Steel reinforced sashes for outstanding support
- Integral pull rail for easy operation of moving sash
- Dual wall replacement flange construction
- 1" nailing fin set back for new construction applications
- Auto-lock for easy locking and heavy duty hardware on casements and awnings
- All metal window rollers on sliding models for long lasting smooth performance
- Hung models feature constant force counter weight balance system
- Vent latches for adjustable ventilation
- Double Hung models allow both sashes to tilt in for safe and easy cleaning from inside the home
- Tilt in Single Hung models allow operating sash to tilt in for safe and easy cleaning from inside the home
- Weep hole covers prevent debris from obstructing the drainage system and provide an aesthetic look
- Beveled, multi-chambered extruded vinyl improves thermal performance while providing an aesthetic appearance
- 2-3/4" frame depth for structural integrity
- Duralite spacer enhances thermal performance of glass components
- Full weather stripping helps prevent air infiltration
- 3/4" insulated glass unit featuring LoE3 glass
- Argon gas filled chamber for increased energy savings

- Flat and sculptured grids in a variety of patterns
- Standard, custom and extra large sizes are available
- Factory stacking and mulling options in many different combinations
- AAMA and NFRC certified to meet or exceed industry structural and energy efficiency standards
- May be ordered to meet ENERGYSTAR® requirements
- Lifetime Warranty (Does not include glass breakage)

Galaxy XO Performance*

U-Factor	0.29
Solar Heat Gain Coefficient (SHGC)	0.21
Visible Transmission	50%

As tested with LoE3 glass and Duralite spacer. Windows meet and surpass California Model Building Security Ordinance for forced entry resistance. *Values may vary per window style and grid options.
